The Good, the Bad and the Legal: Balance between Stability and Disruptions of Law

18-19 May, 2023

Vilnius University Faculty of Law

Vilnius, Lithuania

You are cordially invited to attend the upcoming Conference "The Good, The Bad and The Legal: Balance of Stability and Disruptions in Law". This event will bring together experts from various fields to discuss the impacts of disruptions on the legal system, as well as the legal considerations that must be taken into account in order to maintain a balance between stability and progress.

Date: 18-19 May, 2023

Location: Vilnius, Lithuania

As Abraham Lincoln said, "The best way to predict your future is to create it." This Conference will provide a platform for attendees to share their own perspectives and engage in discussions about how to create a legal system that is both stable and responsive to change.

Don't miss this opportunity to gain valuable insights and network with young professionals in the field.

P. S. Given the disruptive nature of artificial intelligence, we asked Chat GPT to write this invitation on behalf of us, the organisers.

We look forward to hearing your considerations about balance between stability and disruptions of law.
