Purpose of the course unit (module): programme competences to be developed

The purpose of this course is to enhance students' knowledge related to E-Justice and Online Dispute Resolution (ODR) principles and processes on the domestic and international level; to develop the ability to use comparative approach for the analysis of legal regulations in the EU and other jurisdictions, to critically reflect on the key theoretical and practical dimensions of E-Justice development and to evaluate them on legal and ethical grounds; to apply practical techniques of ODR.

| | Contact hours | | | | | | 1 | Self-study work: time and assignments | |
|--|---------------|---------------|----------|--------------------|-----------------------|------------------------------|---------------|---------------------------------------|--|
| Content: breakdown of the topics | Lectures | Consultations | Seminars | Practical sessions | Laboratory activities | Internship/work placement | Contact hours | Self-study hours | Assignments |
| 1. Digitalisation and authomation of dispute resolution | 2 | | 4 | | | | 6 | 10 | Analysis of relevant study materials, preparation of presentations on assigned topics |
| 2. E-Justice (concept and evolution; main technologies and applications; case management systems; selected usecases; challenges and potential) | 2 | | 2 | | | | 4 | 10 | Analysis of relevant study materials, preparation of presentations on assigned topics |
| 3. Online Dispute Resolution (ODR) (concept and evolution; main technologies and applications; selected usecases; challenges and potential) | 2 | | 2 | | | | 4 | 10 | Analysis of relevant study materials, preparation of presentations on assigned topics |
| 4. E-Arbitration & E-Mediation | 2 | | 2 | | | | 4 | 10 | Analysis of relevant study materials, preparation of presentations on assigned topics |
| 5. Challenges, ethics and potential of use of artificial intelligence for resolution of disputes | 2 | | 2 | | | | 4 | 10 | Analysis of relevant study materials, preparation of presentations on assigned topics |
| 6. Prepapration of effective e-submissions and e-presentations for dispute resolution | | | | 2 | | | 2 | 19 | Drafting of e-submissions and e-presentations, preparing for presentation of them in front of the class |

| 7. Using case management systems: Lithuanian courts information system (LITEKO) & Vilnius Court of Commercial Arbitration case management system (Arbis) | | | 2 | | 2 | 2 | Practical exercises of use of respective ICT systems |
|--|----|----|----|--|----|-----|--|
| 8. E-Justice and ODR in our homecountries: comparative analysis of usecases, challenges and future | | | 6 | | 6 | 30 | Preparation for presentation of papers (projects) on the topic |
| Total | 10 | 12 | 10 | | 32 | 101 | |

| Assessment | Weight, | Assessment | Assessment criteria |
|-----------------------------------|------------|---------------------|---|
| strategy | percentage | period | |
| Participation in class activities | 40 | During the semester | Students will be expected to demonstrate both the knowledge gained during the course as well as their abilities to apply it in a given situation. Assessment of participation in class activities consists of: - presentation of assigned topics (capability to critically assess the issues, to identify the most significant features, tendencies and developments related to the particular topic, to provide orally clear arguments in support of their points made in a logical, coherent and structured manner); - practical exercises (comprehensive analysis of practical situations while drafting of e-submissions and e-presentations for dispute resolution, and performing exercises related to usage of ICT systems); - participation in discussions (capability to provide correct answers to questions, formulate problems and suggest (search for) solutions, offer thoughtful critical remarks, contribute to |
| | | | other participants' ideas, etc.). |
| Paper (project) | 60 | Final lecture | Paper's (project's) "E-Justice and ODR in our homecountries: comparative analysis of usecases, challences and future" assessment consists of: - content (comprehensive problem analysis, creativity, proper source application, critical analytical thinking, conclusion/recommendation formulation); - structure and style (clear structural parts, proper language style, exact wording, source references, appropriate and ethical citation use); - presentation (concentrated, efficient and convincing work presentation, adhesive language, the use of informative visual aids); - efficient and active participation in discussion (providing correct answers to questions, formulating problems and suggesting (searching for) solutions, offering thoughtful critical remarks, etc.). |
