

DESCRIPTION OF THE DOCTORAL STUDY SUBJECT

| Title of the subject | Field of science (branch) code | Faculty | Department |
|---|--------------------------------|--|-------------------|
| International Humanitarian Law | Law (01 S) | Law | Public Law |
| Study methods | Number of credits | Study method | Number of credits |
| Lectures | - | Consultations | 2 |
| Individual work | 4 | Seminars | - |
| Subject annotation | | | |
| <p>The course International Humanitarian Law aims at deepening knowledge of the international humanitarian law, in order to develop skills for further research work in this area. During the studies a doctoral student will gain knowledge necessary for further research work, develop ability to critically assess peculiarities of the international humanitarian law, to identify and analyse problems in this area in a broader context of the problems of law theory.</p> <p>Content (topics): rules and principles of the international humanitarian law and problematic issues of their implementation, difficulties of qualification of an international armed conflict and a non-armed conflict, special features of the status of civilians, problematic issues of the concept of a combatant, regulation of means and methods of warfare, the main institutional and substantive aspects of individual responsibility, importance of the International Red Cross and Red Crescent Movement and other challenges which the international humanitarian law faces. Completing this course, a doctoral student will be able to independently identify problematic issues of the topic of international humanitarian law under research, to critically assess views of other scholars and to formulate a position based on arguments on these issues, also will be able to apply knowledge and skills in teaching practices and formulating expert views on legal issues, related with the international humanitarian law.</p> | | | |
